Visa Guidelines Summary

Other than the general guidelines list above, the Ministry of Foreign Affairs has issued specific guidelines for students wishing to study English in Malta. The Notes below summarize the main points of these guidelines:

1. Courses of a maximum duration of 90 calendar days

Third Country National/s (TCN) attending courses of a duration that does not exceed 90 days are to be issued with a Schengen Short-Stay Visa (C-Visa).

If approved, the visa shall be granted on the basis of a multiple entry visa for the duration of the entire course, plus a 7-day grace period, provided that the total amount does not exceed 90 days.

2. Courses exceeding 90 calendar days

Applicants (including those TCNs who are visa exempt for 90 days) who apply for courses which exceed 90 calendar days are to be issued with a National Long Stay Visa (D-Visa).

If approved, the applicant will be provided with a multiple entry D-Visa for a period that does not exceed 180 days, or the duration of the entire course plus a grace period of 7 days, if the course does not exceed 180 days.

If the course is longer than 180 days, the provisions on the extensions of stay will be provided through the CVU or DCEA as explained below. It is important to note that extensions of stay are only granted subject to good performance and satisfactory attendance of students.

3. Extensions of stay

a. In all cases where the course exceeds 90 days, the further authorisation to stay in Malta shall be extended by a national D-visa for a maximum period of 365 days counting from the initial date of entry into the Schengen area.

b. Students who would require a further authorisation to stay in Malta are required to contact the CVU not before 40 days, and by not later than 21 days, before the expiry of their visa, and present all the required documents including proof of satisfactory performance and attendance.

c. If the duration of the course exceeds 365 days and the student would have already exhausted the validity of the national visa, or his/her stay in the Schengen area already exceeded 365 days, the student must apply for a residence permit in order to extend his/ her stay in Malta. Applicants will be required to contact the DCEA not before 30 days and by not later than 21 days before the expiry of his/her visa and present all the required documents including proof of satisfactory performance and attendance.

e. To maintain eligibility to hold a student visa, all students are required to attend lessons regularly unless there are genuine reasons for absences as well as to make satisfactory progress. A minimum of 75% attendance is required. The Central Visa Unit-Identity Malta- Immigration Police can revoke visa of students who do not attend classes or make satisfactory progress. It is the students' responsibility to comply with the requirements to hold a student visa, and it is extremely important, as it may affect any future visa applications and studies in Malta. For instances of sickness/being unable to come to classes, students must inform School and provide the necessary certification. If there is another reason for absence (eg for travel or other reasons) approval must be sought from the School and the School must be kept informed at all times.

4. Employment

Students who do not qualify under the provisions of Subsidiary Legislation 217.09, and are following courses which exceed 90 days, may take up employment in Malta. Access to employment may be granted subject to conditions imposed by Jobsplus, including those sectors where these students would be allowed to work. Students will only be allowed to work a maximum of 20 hours per week after their first three months of study in Malta. These provisions are subject to change from time to time according to the discretion of the Ministry responsible for Jobsplus.
