

This course is based on helping students to improve their level of professional English so as to be able to communicate effectively in the work environment.

The lessons cover general needs at targeted levels:

- Elementary (A1 – A2)
- Pre- Intermediate (A2 – B1)

In this course we adopt variations of both the Communicative approach- aiding students to become better communicators, and the Lexical approach- focusing on combining words, phrases and expressions, both of which will give students the language skills they need to communicate fluently and accurately in their chosen field.

The course materials focus on adapting the four skills- reading, writing, listening and speaking, as well as focusing on grammar and lexical issues, and pronunciation, all within a centred context.

Student needs are an important aspect that we take into consideration when developing course materials and the themes covered would apply to a wide range of students working in different fields, whilst also personalising to individual needs.

Lessons are based on full immersion where learners are exposed to target language and simulating real- life experience and situations.

Some of the topics covered in this course:
